

Healing Garden

COMMEMORATIVE OPPORTUNITIES

The St. Francis Foundation is excited to bring a Healing Garden to the Mosaic Medical Center Maryville - Cancer Care Entrance. We hope this garden nourishes the soul of all who enter it, whether it be patients, families, or caregivers, and truly provides a place of comfort, peace, and reflection to those that need it. The garden, as well as the parking and drop off area are solely funded through the generosity of donors like you.

Purchasing a commemorative butterfly will not only help us build the garden, but allow us to continue to serve our local cancer care patients through assistance with transportation, prescriptions, medical equipment, and meals. Butterflies have long been a symbol of transition and change, whether it be from an old life to a new life, or from a hard life to a better life, these beautiful creatures have a way of showing us how precious life is. We hope you will consider supporting the St. Francis Foundation's Cancer Care Campaign with a purchase of a Commemorative Butterfly.
